GENERAL DESCRIPTION

Sereniti Rubber Flooring combines exceptional sound absorption, comfort and beauty with the durability needed for heavy commercial traffic. The result is a high quality performance solution with the aesthetics needed to create the ultimate serene flooring environment ideal for healthcare, education, hospitality, senior living, retail, transportation, museums and libraries. With testing and certifications like slip, wear, smoke, fire antimicrobial and antifungal resistance, FloorScore Certified, PVC free, low VOC emissions, 60 dB acoustical performance and a 10-year commercial warranty, Sereniti Rubber Flooring is the perfect solution for almost any project.

The Sereniti Rubber Flooring collection is available in an extensive range of colors, patterns, profiles and accessories to deliver the design options you want and the performance you need.

Rustic Shale, Modern Stone, Urban Shale and Embossed Round complete the Sereniti Rubber Flooring Tile Collection and are available in either 18" x 18" nom (452 mm x 452 mm) and 36" x 36" nom (905 mm x 905 mm) formats. Rustic Slate, Modern Stone and Urban Shale profiles are all 1/8" (3.17 mm) thick and Embossed Round is available in 0.118" (3 mm) thickness. Regular and one-piece stair treads are available in Embossed Round profile only in any tile collection colors. For areas requiring extra slip resistance, visually impaired safety strip configurations are available to complete the system.

The Sereniti Rubber Flooring Coastal Sheet Collection is available in rolls of 60" x 50' nom (1.5 m x 15.2 m) in both 0.080" (2 mm) and 0.118" (3 mm) thicknesses.

Expanko Resilient Flooring offers optional heat welding or cold welding for a seamless sanitary floor along with guaranteed adhesive systems for quick and easy installation. *Complete Sereniti Rubber Flooring Installation Instructions (Document ID: 710T, 710S and 710ST) and Sereniti Rubber Flooring Care and Maintenance Instructions (Document ID: 711T, 711S and 711ST) as well as technical data and information are available at www.expanko.com.*

Once installed, Sereniti Rubber Flooring is extremely easy to maintain with a no wax floor option. A neutral cleaner, vacuum cleaner or floor duster is all that is required for daily/weekly maintenance. *Complete Sereniti Rubber Flooring Care and Maintenance Instructions (Document ID: 711T, 711S and 711ST) are available and should be followed.*
